

theGardener in a nutshell

BDD : Behavior Driven Development

Bla bla bla....

Bla bla bla...

PO

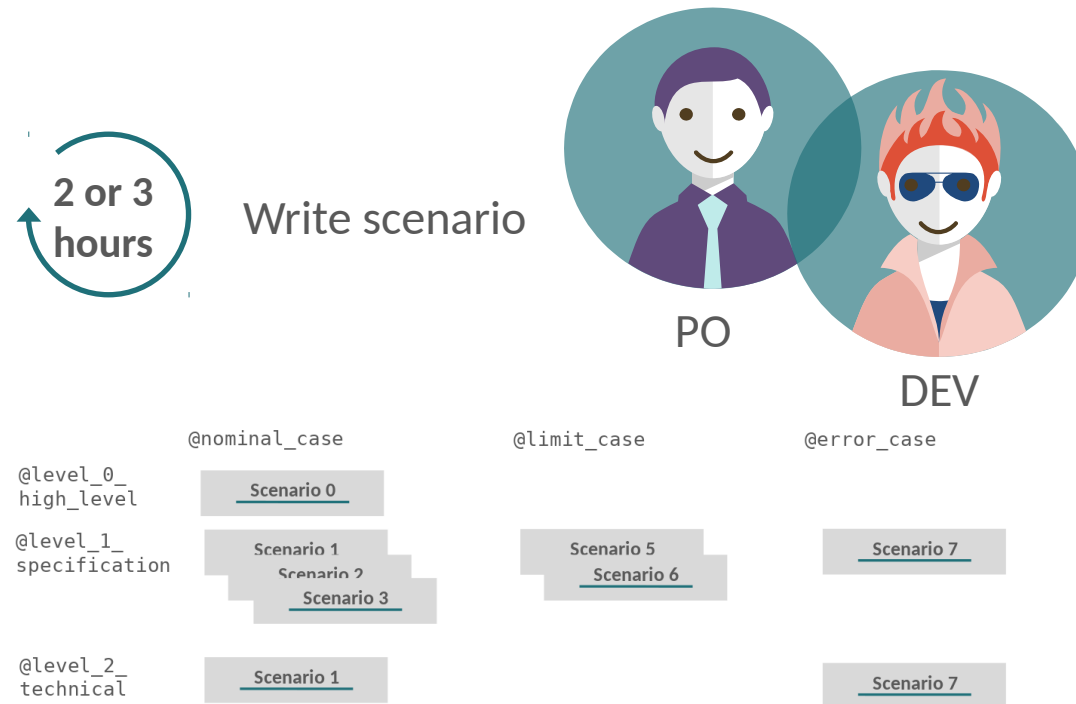

DEV

- A good way to open the discussion with the product owner
- A contract between the product owner and the dev team

BDD : Behavior Driven Development

- Improve the team velocity

BDD : Behavior Driven Development

DEV

- Guide the dev in the implementation of the feature

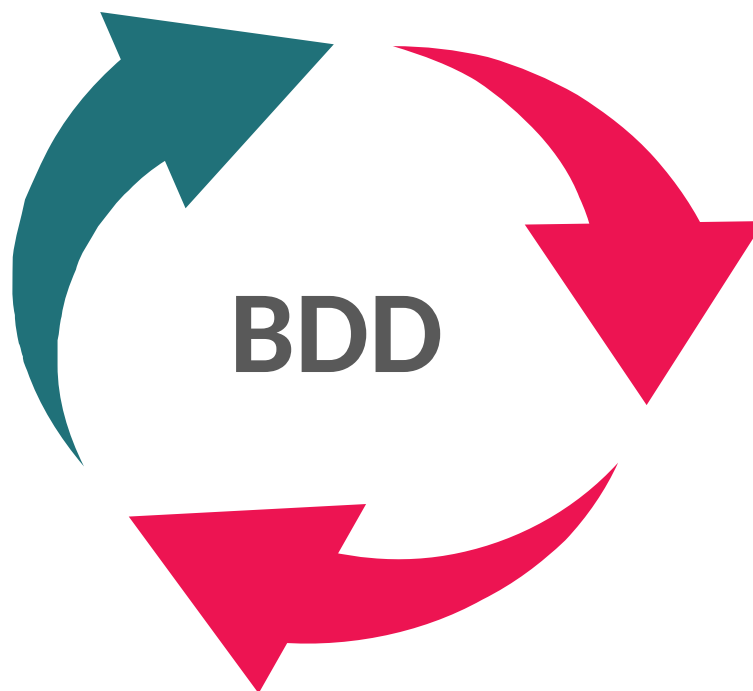

BDD : Behavior Driven Development

DEV

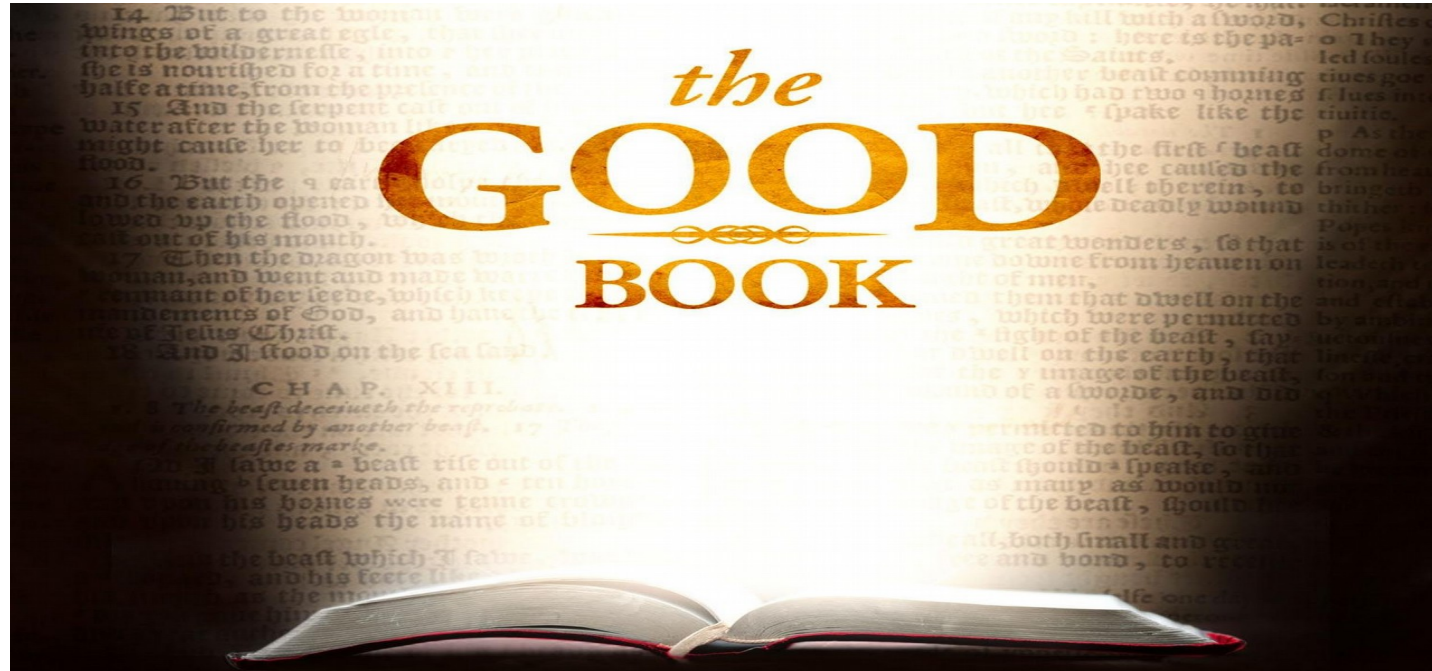

- Make the refactoring at component level possible and easy

BDD : Behavior Driven Development

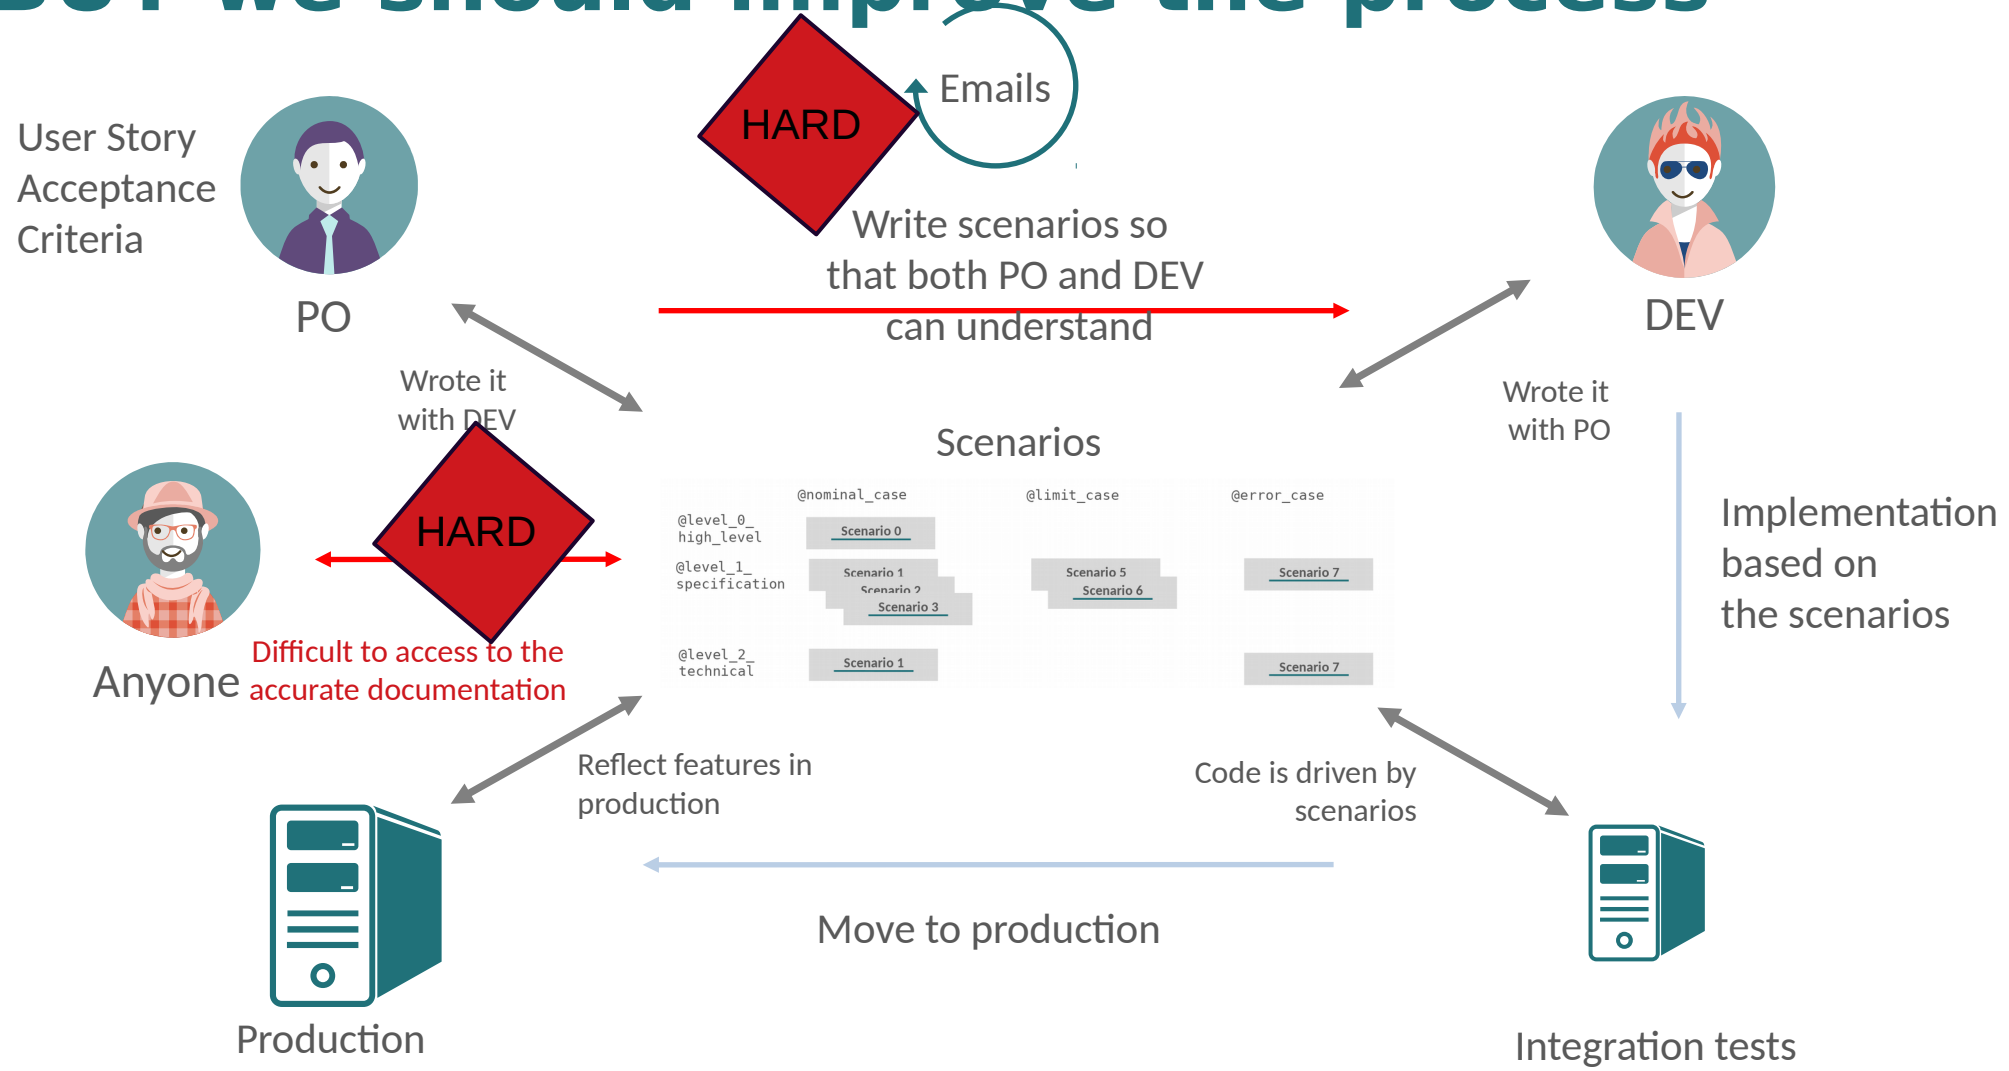

Anyone

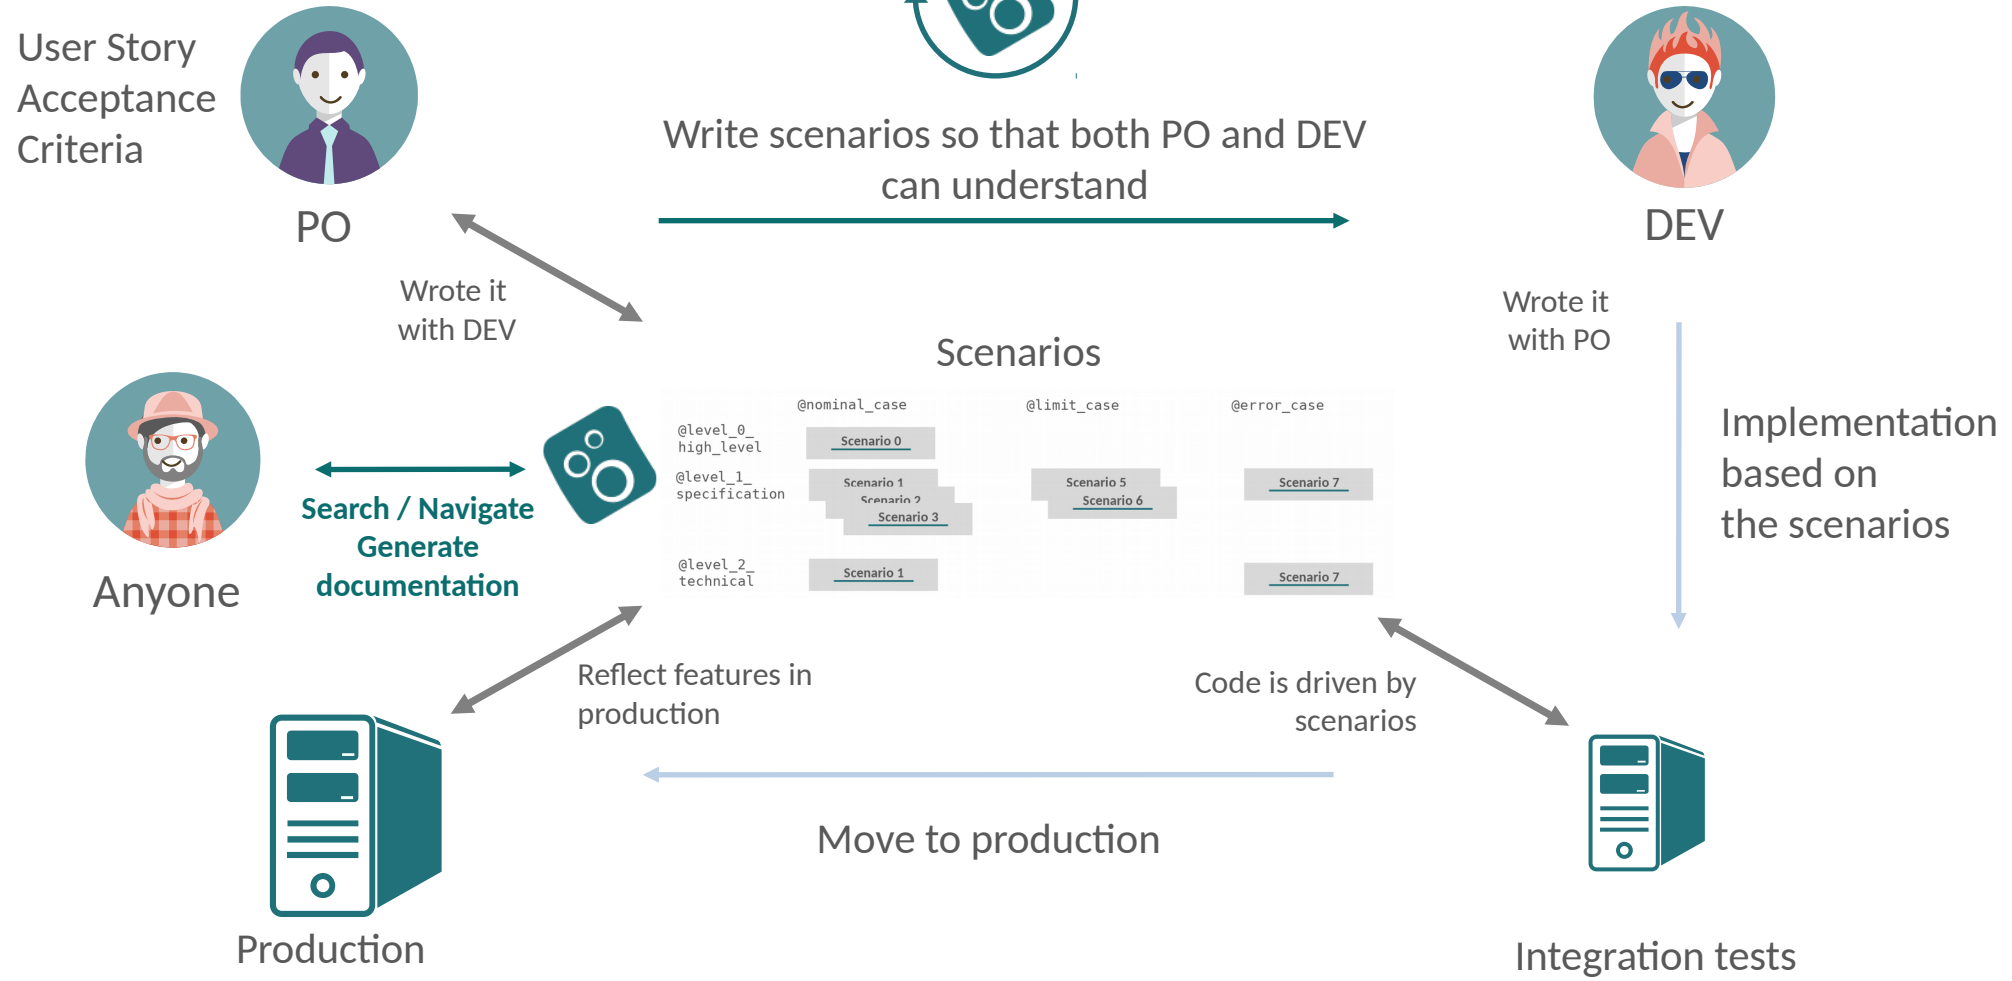

- Exhaustive accurate executable documentation

BUT we should improve the process

With theGardener

- Open source project on Apache Licence 2.0
